

UDAY KIRAN TELLA

Full Stack Developer | MERN & Next.js Specialist

Bengaluru, India | tellaudaykirann@gmail.com | linkedin.com/in/uday-kiran-tella | github.com/udaykirantella27

PROFESSIONAL SUMMARY

Full Stack Developer with hands-on experience in building responsive web applications, operational dashboards, and reliable RESTful APIs. Proficient in React, Next.js, Node.js, Express, MongoDB, PostgreSQL, and modern cloud deployment. Demonstrated track record in shipping live production platforms with measurable conversion and performance gains.

CORE TECHNICAL SKILLS

- " Frontend: React.js, Next.js 14, TypeScript, JavaScript (ES6+), HTML5, CSS3/CSS Modules, Tailwind CSS, Framer Motion
- " Backend & APIs: Node.js, Express.js, RESTful Architecture, Server Actions, Middleware, JWT, RBAC Authorization
- " Databases & Tools: MongoDB, PostgreSQL, Supabase, Git, GitHub Actions, Vercel, Vite, Postman, Jest

WORK EXPERIENCE

Associate Software Developer

2024 Present

Zihwa Insights Bengaluru, India

- " Architected and shipped scalable commerce and CRM workflows using Next.js, Node.js, Supabase, and PostgreSQL.
- " Implemented database-level Row-Level Security (RLS) and Role-Based Access Control (RBAC) across multi-tenant views.
- " Optimized server-side rendered (SSR) endpoints, cutting median page load times and reducing server response latency by 20%.
- " Collaborated across engineering and product sprints in an Agile cadence, maintaining rigorous code quality and tests.

Frontend Engineering Intern

2023 2024

Ve-Lyra Labs Bengaluru, India

- " Engineered responsive healthcare analytics dashboards and reusable UI components in React with strict WCAG compliance.
- " Integrated secure REST endpoints for patient telemetry data, achieving seamless zero-CLS data visualization updates.

PRODUCTION PROJECTS & CASE STUDIES

Stalks N Spice | Full Stack Commerce Engine

Next.js, React, Node.js, Supabase, PostgreSQL, Razorpay

- " Built high-velocity e-commerce store with optimistic cart synchronization and sub-220ms edge server-rendered delivery.
- " Achieved +38% completed checkout conversion and 99.9% uptime across peak promotional order periods.

Distribution Intelligence Network (DIN) | Enterprise Operations Portal

React, Node.js, Express, MongoDB, Redis, JWT/RBAC

- " Centralized seller command console managing multi-warehouse stock, transit handoffs, and real-time ledger updates.
- " Reduced inventory discrepancy rates by 62% with indexed MongoDB compound aggregations and optimistic locks.

AACP Infrastructure Systems | Corporate EPC Showcase

Next.js, TypeScript, SSR, Cloudflare CDN, Framer Motion

- " Production corporate platform with 98/100 Lighthouse performance and 3.4x surge in qualified tender RFP submissions.

EDUCATION & CERTIFICATIONS

Bachelor of Technology (B.Tech) in Computer Science & Engineering

Visvesvaraya Technological University (VTU) | CGPA: 8.2 / 10 | 2019 2023

- " Certifications: Meta Certified Front-End Developer, MongoDB Node.js Developer, AWS Cloud Practitioner (Foundational)
